St. Marys Intracoastal Gateway Feasibility/Best Use Study	Artie Jones, III Econ. Development (912) 882-8111 artie.jones@stmarysga.gov	4/23/2013	\$20,000 +/- Fund Balance/General Fund	The City of St. Marys purchased a 2.8 acre parcel of property in downtown St. Marys which includes a dock and marina. A steering committee of concerned citizens and local leadership were appointed by the St. Marys City Council to guide the development of the parcel with these goals in mind: Public Walkway, Historical Compatibility, Promote Economic Development, Environmental Enhancement, and Visitor and Citizen Destination. A feasibility/best use study was conducted on the property to determine the sites conduciveness for its use as a hotel or other appropriate development. The study was completed and presented to the committee during the April 4 th meeting of the St. Marys Intracoastal Gateway Committee.
